

For Immediate Release

July 31, 2013

Miami, Oklahoma

Scepter Manufacturing, LLC, of Miami, OK is now certified to ISO 9001:2008 for its Quality Management System. The certificate was issued on July 26, 2013 by SAI Global.

The ISO designation assures customers that Scepter Multi-Layer Portable Fuel Containers meet the high standards set by Scepter and the industry.

"Scepter Manufacturing is committed to serving our customers' needs with the best products and solutions for the safe transport of portable fuel containers," said Todd McClain, General Manager of Scepter Manufacturing, LLC. "The ISO standard is a rigorous examination of our management procedures and sets the bar very high. I am proud to say that Scepter met the standard, and I'm extremely proud of the entire Scepter team that worked exceptionally hard to meet the ISO requirements."

Scepter Manufacturing, LLC is the leading manufacturer of quality portable fuel containers in the United States.
